Fran West

Motivational Speaker

Fran West is an award-winning pilot, adventurer, author, photographer and motivational speaker.

In a remarkable life turn around, this *ordinary* woman, in her mid forties, left her comfort zone of public library manager to set off in an aircraft for the adventure of a life time – a marathon flight around Australia's coast. Her *Oz Flight '99* led to her becoming the first woman to pilot a light aircraft around the coast of Australia (mainland and Tasmania).

The flight was fraught with many trials. Facing challenges and overcoming fears made it more like a personal journey, with this *Spirit of Adventure Award* winner sharing her story in her book *Plane Reflections*. Utilising her experiences, Fran is now Australia's Life Pilot, motivating others to pilot their own lives (personal or business) and navigate their way to success.
